I am directed to inform that Ministry of Jal Shakti, through Central Water Commission is implementing ongoing World Bank assisted Dam Rehabilitation and Improvement Project (DRIP) since April 2012. It is having rehabilitation provisions for 198 dam projects located in Seven States with ten Implementing Agencies on-board.

3. In this context, CWC has published official "Guidelines for Preparation of Emergency Action Plans" in February 2016 under the DRIP. All Implementing Agencies are in the advance stage of preparation of this important document. But at the same time, implementation of this document with all stakeholders is one of the conditions to sensitize the stakeholders as well disseminate this document.

4. Keeping in view above facts, Kerala state electricity board has published EAP for following Dams.
The EAP of above dams may be downloaded from the website of KSEBL, Govt. of Kerala which is https://www.kseb.in/index.php?option=com_tags&view=tag&layout=list&id=01=35&lang=en. As a procedural requirement, all leading agencies which participate in handling of any natural disaster are proposed to be invited to attend this meeting. The Central Agencies are being invited by CWC, and State Agencies as well as downstream affected public are being invited by KSEB.
