Sub: Request to attend virtual Stakeholders Consultation Meeting on "Implementation of Emergency Action Plan" for the Dams of Tamil Nadu WRD on January 29, 2021 -reg

Sir,

I am directed to inform that Ministry of Jal Shakti, through Central Water Commission is implementing ongoing World Bank assisted Dam Rehabilitation and Improvement Project (DRIP) since April 2012. It is having rehabilitation provisions for 198 dam projects located in Seven States with ten Implementing Agencies on board.

2. Under the Project, preparation and publication of Emergency Action Plans (EAPs) for all DRIP dams is one of the important activities in order to mitigate associated risks in case dam breaks to ensure safety of downstream people, property and environment.

3. In this context, CWC has published official "Guidelines for Preparation of Emergency Action Plans" in February 2016 under the DRIP. All Implementing Agencies are in the advance stage of preparation of this important document. But at the same time, implementation of this document with all stakeholders is one of the conditions to sensitize the stakeholders as well disseminate this document.

4. Keeping in view above facts, Tamil Nadu Water Resources Department (TNWRD) has published EAP for following Dams (copy enclosed). It may also be downloaded from the website of Water Resources Department, Govt. of Tamil Nadu which is [http://www.wrd.tn.gov.in](http://www.wrd.tn.gov.in) . As a procedural requirement, all leading agencies which participate in handling of any natural disaster are proposed to
be invited to attend this meeting. The Central Agencies are being invited by CWC, and State Agencies as well as downstream affected public are being invited by TNWRD.
